

GV Health Lung Cancer Rapid Access Clinic

This new clinic within Goulburn Valley Health Oncology Unit will provide rapid access for early evaluation of patients with suspected lung cancer within the West Hume catchment area, in alignment with the Optimal Care Pathway for lung cancer.

All referrals will be triaged by the Medical Oncologist on-call and patients will be seen within one week. As this is a Medicare funded clinic, a medical practitioner referral will be required.

Please send through all relevant investigations including radiology, histopathology and laboratory results with the referral.

Referrals may be faxed or emailed to:
